

Luuk van Wijlick

Associate Architect

With Mecanoo since 2003

Professional qualifications Delft University of Technology, Master of Science in Architecture (honorable mention); Registered with the Bureau Architectenregister (NL)

“Designing and realizing complex projects requires unlimited ambition and a great team spirit.”

Luuk joined Mecanoo after he graduated from the Technical University of Delft in 2003. With over a decade of experience as an architect, Luuk has worked on a variety of commercial and civic landmarks such as the Hilton Amsterdam Airport Schiphol hotel and the Eurojust offices in The Hague. In the past 6 years, Luuk has gained valuable design experience on large scale projects in the US, such as the Martin Luther King Jr. Memorial Library and Bruce C. Bolling Municipal Building.

Luuk’s strengths lie in delivering high-quality designs within the challenges of very complex or unpredictable processes. His education and experience allow him to oversee the consequences of design decisions at early stages. Luuk’s involvement is substantial from the project commencement until completion, to ensure that the building meets high standards of functionality, aesthetics and comfort. By empowering all stakeholders to participate in the creative process, he makes sure to keep everyone on board within the most complex projects.

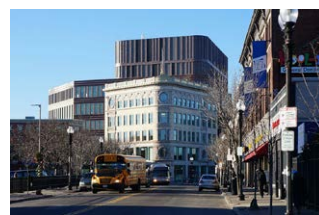

Selected projects

Eurojust , The Hague, NL
Size: 18,475 m²
Year: 2011 - 2017

Martin Luther King Jr. Memorial Library, Washington D.C., US
Size: 43,000 m²
Year: 2014 - 2020
