

Ron van Logchem
Associate Architect

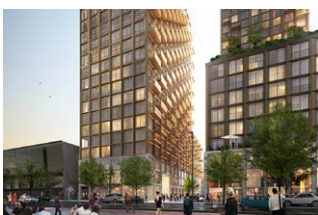

With Mecanoo since 2009

Professional qualifications MArch, Academy of Architecture, Rotterdam; Bachelor of the Built environment, HTS Bouwkunde, The Hague; Registered with the Bureau Architectenregister (NL)

Ron’s experience in architecture and urban planning projects gives him the ability to act on multiple design scales from urban planning to the smallest technical detail. His background as an architectural engineer allows him to bridge the gap between designers and technical advisors. He excels at translating complex visions into clear and coherent concepts with descriptive visuals (both hand drawn and digital) to facilitate active dialogue and engagement. He focuses on the optimal integration of architecture, technology and sustainability to design solutions that meet the users’ needs, together with a clear and functional layout alongside exciting spaces.

Ron has made a substantial contribution to the delivery of Mecanoo’s master planning, mobility, housing, educational and commercial office projects. He has been involved in numerous celebrated and award winning projects such as the Delft Municipal Offices and Train Station, Nieuwland National Park, Marktkwartier and Food Centre Amsterdam and Langebrug Student Housing Leiden. His housing projects like Marktkwartier and Langebrug are characterised by varied and sustainable environments that are carefully integrated with public space to create distinct identities. Ron's educational projects such as the Amsterdam International Community School reflect a keen attention to innovation in educational programme delivery combined with playful architecture and sustainable solutions.
