

**Niels Onderstal**  
Associate Technical Architect

With Mecanoo since 2002

Professional qualifications HBO Bouwkunde, Haagse Hogeschool

Niels has a background in architectural engineering and has been involved in project coordination on a wide range of projects and taken the role of project leader for the majority of his time with Mecanoo. Niels specialises and has a lot of knowledge about BIM procedures and protocols. Within Mecanoo, he is active in the BIM project group that shares knowledge of the latest innovations in the field of BIM with the engineers at Mecanoo. As a member of the Quality Management team, Niels aims to improve the overall quality of the office.
