

Seger Bekkers

Associate Architect

With Mecanoo since 2007

Professional qualifications Building Engineering, Den Bosch (2004), Master of Science in Architecture Public Realm, Delft University of Technology (2007); Registered with the Bureau Architectenregister (NL)

Seger has over ten years' experience in the redevelopment of monuments in the Netherlands and abroad, with a particular focus on public buildings. He is familiar with complex assignments, restorations, renovations and procedures of the Cultural Heritage Agency of the Netherlands. Educated as both architectural engineer and architect, his combined technical and design experience allows him to smoothly develop a design from concept to implementation. Seger's analytical approach and broad technical knowledge make him versatile in every team and his technical insight is of great added value when managing complex design processes.
